Academic and Research Positions

Postdoctoral Research Fellow, Department of Psychology & Neuroscience, Boston College — 2025 –
Advisor(s): Dr. Caroline Smith, Dr. John Christianson

Postdoctoral Research Fellow, The Saban Research Institute, Children's Hospital Los Angeles — 2025
Advisor: Dr. Brian Dias

Postbaccalaureate Trainee, Laboratory of Behavioral and Genomic Neuroscience, NIAAA — 2017 – 2019
Advisor: Dr. Andrew Holmes

Teaching Positions

Instructor of Record, Boston College — 2026 –
Gateway Scholars for STEM, Introduction to Behavioral Neuroscience

Adjunct Professor, Fitchburg State University — Fall 2025

Professional STEM Tutor, Fitchburg State University — Summer 2025

Graduate Teaching Fellow, Children's Hospital Los Angeles, Samuels Family LA-HIP Program — 2021-2024

Education

Ph.D., Neuroscience Graduate Program, University of Southern California — 2024
Advisor: Dr. Brian Dias

BA, Psychology, *cum laude*, American University — 2016

Grants, Honors, and Awards

Boston College Postdoctoral Grant	2025
The Saban Research Institute Pre-Doctoral Award	2022 – 2024
The Saban Research Institute Training and Travel Award	2021, 2023
NIH Post-bac Poster Day Outstanding Poster Award	2018
Brain, Behavior, and Chemistry Conference Travel Award	2017
NIH Postbaccalaureate Intramural Research Training Award	2017
American University Dean's List	2014 – 2016
American University Dean's Scholarship	2013 – 2016

Publications

1. Anthony Djerdjaj, **William W. Taylor**, Odette T. Amoakohene, Caroline J Smith. (2026) Adolescent blockade of complement signaling in the lateral septum increases social novelty seeking behavior in male mice. *bioRxiv.* https://doi.org/10.64898/2026.08.28.747845
2. **Taylor, W.W.,** Gao, V., Korobkova, L., Dias, B.G., (2025) Ensembles and engrams in mouse cortical and sub-thalamic brain regions supporting context and memory recall. *Neurobiology of learning and memory.* doi.org/10.1101/2025.06.29.662192

3. Vasquez, L.S., Stack, S., **Taylor, W.W.,** Dias, B.G. (2025) Intergenerational Effects of Stress – A Focus on Learning and Memory. *Current topics in behavioral neurosciences*. doi: 10.1007/7854_2025_578
